

HEAVY DUTY LED DOCK LIGHT

Innovative, Energy Efficient & Safe

ENERGY EFFICIENT & GREEN!

- Up to 94% Less Energy than traditional Incandescent fixtures
- Can Outlast 25 Incandescent bulbs
- Energy rebate potential

SAFE

- Optimum brightness throughout the entire length of the trailer
- Emits cool white light
- Always cool to the touch

RUGGED DESIGN!

- Impact resistant, cast aluminum cover
- Clear acrylic cover Ideal for use in food warehouses
- Meets food facility requirements for "no glass"
- Light is completely sealed for "Wet Locations" IP66, NEMA4

REDUCED MAINTENANCE COSTS!

- Eliminates light bulb replacement and/or clean-up
- Upgrade kit minimizes installation time by reusing existing arms

HD LED SPECIFICATIONS

- Illumination exceeds a 300watt incandescent bulb while using only 18 watts
- Minimum life of 60,000 hours at 90% lumen maintenance (over 10 years)
- Constant current IP66 LED driver rated for 100,000 hours of operation at 77°F
- 7 LED emitters, Heavy Duty 14 gauge, 1-1/2" (38mm) square steel arms
- Safety yellow, powder coated finish for high visibility. Non-corrosive
- UL, cUL, CE certified and RoHs Compliant
- Voltage input: 100-240VAC, 50/60Hz, Single Phase
- Available as complete dock light with light head and arms or just the light head
- Reach: 40" and 60" (1016mm and 1524mm)

Heavy-duty on/off switch and strain relief are located in the recessed back plate, reducing the chances of being damaged by moving equipment in the loading dock area.

3
YEAR
WARRANTY
